Sir:

The following Remarks are submitted in response to the Office Action dated June 13, 2002.

REMARKS

At the time of the Office Action dated June 13, 2002, claims 1-6 were pending and rejected in this application.

Claims 1-3 and 5-6 are rejected under 35 U.S.C. § 102(b) for lack of novelty as evidenced by Kloeppel et al., U.S. Patent No. 6,121,703 (hereinafter Kloeppel)

On page two of the Office Action, the Examiner asserted that Kloeppel discloses a hydrodynamic bearing corresponding to that claimed. This rejection is respectfully traversed.
